Improving Global AML/CFT Compliance: on-going process - 19 October 2012

Paris, 19 October 2012 - As part of its on-going review of compliance with the AML/CFT standards, the FATF has to date identified the following jurisdictions which have strategic AML/CFT deficiencies for which they have developed an action plan with the FATF. While the situations differ among each jurisdiction, each jurisdiction has provided a written high-level political commitment to address the identified deficiencies. The FATF welcomes these commitments.

A large number of jurisdictions have not yet been reviewed by the FATF. The FATF continues to identify additional jurisdictions, on an on-going basis, that pose a risk to the international financial system.

The FATF and the FATF-style regional bodies (FSRBs) will continue to work with the jurisdictions noted below and to report on the progress made in addressing the identified deficiencies. The FATF calls on these jurisdictions to complete the implementation of action plans expeditiously and within the proposed timeframes. The FATF will closely monitor the implementation of these action plans and encourages its members to consider the information presented below.

Since then, Afghanistan has taken steps towards improving its AML/CFT regime, including by establishing high level AML/CFT coordination mechanisms. However, the FATF has determined that certain strategic AML/CFT deficiencies remain. Afghanistan should continue to work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing and implementing an adequate legal framework for identifying, tracing and freezing terrorist assets; (3) implementing an adequate AML/CFT supervisory and oversight programme for all financial sectors; (4) establishing and implementing adequate procedures for the confiscation of assets related to money laundering; (5) establishing a fully operational and effectively functioning Financial Intelligence Unit; and (6) establishing and implementing effective controls for cross-border cash transactions.
